

Dear brothers and sisters, and all the people who help us financially in this difficult time. We want to share good news! How God through you blesses people in need. First of all we try to help those who stay in Ukraine.

1. We gave money for food to our brother in Christ Philip. He is an orphan, graduated from the orphanage. He is 24 years old. Philip is a young faithful Christian. He has been working in prison of a strict regime for 3 years (security guard). He always attends Sunday services and youth meetings, helps orphans like him. Right now around Zaporozhya there are fighting, that's why the prison where he works was evacuated on the west of Ukraine. He is left without job, money and food. Thank to your financial support we were able to send him money. He bought food for him, his sister and friend. Philip took pictures of the food he bought and wrote a message that he is grateful with love.

2. Also we had a chance to help Julia financially. She has eczema and needs to continue her treatment. Last month I wrote about this woman. Julia has a little 5 years old daughter. She has a blood cancer. All these events made her condition even worse. Because stress influences our body. For the second month now, Julia has been undergoing expensive treatment for eczema in the hospital. Julia also took a photo of the purchased medicines. Thanks to your financial help, Julia is getting closer to the Kingdom of Heaven - this is the preaching of the Gospel in action.

3. Also we continue to help people in Poland. In April, we finally found Ulyana in Warsaw. She doesn't have a phone, we couldn't contact her. We tried to find her for a long time, because we knew that she and her two kids evacuated from Zaporozhya to Poland. Ulyana is 29 years old orphan. She graduated from boarding school. In July 2021 she was baptized and regularly attended church. She raises her two kids alone(son is 6 years old, daughter 7 months old). When we first met her, her kids were hungry. We fed them in McDonald's and bought food. Volunteers in Warsaw gave Ulyana and her children a room. A week after our meeting, Ulyana reported that she and her children were being evicted from the room, 100 km from Warsaw, to a small village. We managed to take Ulyana and her children to a settlement for Christian refugees, where we also live. When Ulyana moved, it turned out that her daughter Diana (7 months old), had been sick with bronchitis! We took her to the hospital, prayed that the little girl would not have pneumonia! Thanks to your financial

support, we paid for tests, medicines and bought an inhaler for the child. We also helped Uliana with clothes for children, a stroller for the baby.

4. In April in our refugee settlement, 2 women and a teenager girl came. Ludmila, Valeriia and her daughter Dasha. Those people came without any personal things and clothes. They had been sitting for one month in a bomb shelter. They didn't have a chance to go home and pack a suitcase. They used to live in Kharkiv district that was heavily bombed and right now it is very dangerous to be there. They even didn't have another pair of underwear. We bought them clothes, underwear and the most necessary things. They thanked us with tears in their eyes.

5. We also send photos of Sunday services and Bible study lessons that I am currently conducting in this settlement for refugees from Ukraine. In one of the photos, a young girl is sitting and reading the Bible, which she brought

from Ukraine, a gift from the Eastern European Mission. The girl's name is Diana, and she is thinking about Baptism. Pray for Diana that the Lord would touch her heart and she will be baptized.

I want to share my request:

1. You know that there are 53 people in this refugee settlement (mostly women and children), and I use my car every day. My car is the only one in our settlement. We take food, women and children to hospitals, banks, social services, we buy bed linen for everyone, pillows, blankets ... Now my car, after 2 months of daily intensive use, needs maintenance. Since the car is 8 years old, some parts need to be changed (shock absorbers, tie rods, tips, brake pads, etc.). If you have the opportunity, help me with the repair of the car. Thank you so much for your prayers and financial support for my family and our ministry.
